REF: **THANK YOU LETTER**

Dear Sir/Madam **AIPA**

I hope I find you well all members of **AIPA** Organisation.

I would on my personal behalf as the Head of the school and on behalf of Hozheri Primary School and Community convey my utmost gratitude towards your Organisation for the splendid assistance you have rendered to the school since time immemorial. Your donations which include harnessing water from the dam to the school has played a significant role to our learners. The learners and teachers are now able to get water from taps which are few metres within the school yard. We are now able to clean our toilets regularly and even water of school garden.

Our school garden has since changed in its appearance because we can do gardening throughout the year.

2. The fruit trees you brought us are a marvel to watch.
3. The textbooks you gave us have gone a milestone in the reading and learning areas to my learners at Hozheri school.

Most learners are now able to read and write because they now have books to refer to.

4. Recently the Volley ball and Soccer balls brought by the Duo Klaus and Suzanne Werber will help improve the sporting activities at the school thereby making the school compete with other well-funded schools within the District.
5. Solar panels which is giving light to the school was of paramount importance to teachers. They are now able to charge their phones and I'm also able to work on my laptop and even doing printing because of the solar system you installed.

Of all the above assistance you rendered and some I might have skipped, I say thank you **AIPA**. Thank you Klaus and Suzanne Werber bringing hope within Hozheri community.

Also I would like to thank Willy Chakauya who coordinates all activities at school provided by you. May I at this juncture declare and commit myself: I Tadious Nyoni (the Head of Hozheri) that all activities, material you provided as an organisation, I will jealously guard and protect them to my best ability so that they are safe and be used for many many years to come May God bless you guys and please don't tire in helping us back in Zimbabwe. We are a marginalized school with the intension of coming out from the imaginalized shell. Thank you so much.

Yours Faithfully

Nyoni Tadious (Head of school)
